As a new XM radio subscriber, I urge the FCC to reject NAB's petition 04-160. When you pay for a service such as XM radio, you are also paying for special benefits and features that are not normally available. One of these features is traffic and weather and I use these features on a daily basis. This is one of the primary reasons why I'm paying for XM radio. If you allow NAB's petition to go through, you will also be hurting XM's business which is unfair.
